

MOLINA HEALTHCARE OF NEW JERSEY

Clinical Policy: Semaglutide (Wegovy) for Chronic Weight Management

Policy Number: NJ-RX-SEMA-OB-2024 | Effective: 2024-01-01 | Version: 1.1

1. SCOPE

This policy applies to Molina Healthcare of New Jersey Medicaid managed care members seeking prior authorization for semaglutide (Wegovy) when prescribed for chronic weight management in adults with obesity or overweight with weight-related comorbidities.

Applicable HCPCS codes: J3490 (Unclassified drugs — semaglutide injectable).

Applicable NDC codes: 0169-4525, 0169-4527, 0169-4530 (Wegovy).

Applicable ICD-10: E66.01 (Morbid obesity due to excess calories); E66.09 (Other obesity due to excess calories); E66.9 (Obesity, unspecified).

Lines of business: Medicaid managed care. States: NJ.

2. COVERAGE POLICY — MEDICAL NECESSITY CRITERIA

Authorization is approved when ALL of the following criteria are met:

2.1 BMI THRESHOLD (ONE OF THE FOLLOWING)

- (a) Body mass index of 30 kg/m² or greater (obesity), OR
- (b) Body mass index of 27 kg/m² or greater with at least one weight-related comorbidity (hypertension, dyslipidemia, type 2 diabetes mellitus, obstructive sleep apnea).

2.2 AGE

Patient is 18 years of age or older.

2.3 FAILED LIFESTYLE INTERVENTION

Documented participation in a structured weight management program including dietary counseling and physical activity for a minimum of 6 months with inadequate response (defined as less than 5 percent reduction in baseline body weight).

2.4 PRESCRIBING INDICATION

The medication is being prescribed primarily for chronic weight management, not for glycemic control as a primary indication.

3. EXCLUSIONS

This policy does not cover semaglutide when:

3.1 PRIMARY INDICATION IS GLYCEMIC CONTROL

The medication is being prescribed primarily for glycemic management of type 2 diabetes rather than for weight management. Such requests should be evaluated under the diabetes medication policy.

3.2 BARIATRIC SURGERY HISTORY

Patient has had bariatric surgery within the prior 6 months.

3.3 PREGNANCY

Patient is currently pregnant or planning pregnancy within the next 60 days.
